

Keep safe when online

# Thank You

Thank you for reading this leaflet and I hope you know much more about Cyber bullying and other dangers online.

By Kirsty Robertson

# Cyber bullying

All you need to know about cyber bullying!

## Hacking

Hacking is when people try to takeover your computer and talk to people on your facebook, twitter, MSN or bebo account and talk to your friends and say nasty things about your them when it's not you.

## Flaming

Flaming is when People try to offend you online and say rude things to hurt you. Sometimes people can make up sites about you and hurt your feeling's.

## Trolling

Trolling is when people are saying mean and nasty things about you when online.

You can stay safe from

Being Trolled by not adding people you don't know on Face book, Twitter or any other

Networking sites.
